Office Action Summary

Art Unit: 1732

1.The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2.Claims 40-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Curtis (3,914,485). Curtis discloses a liquid (printable) medium for creating relief art or texturing on the surface of a substrate, the medium including a water based emulsion (note the alternative embodiment disclosed by Curtis at column 8, line 41) and an expandable polymer with a blowing agent encapsulated therein. The pattern is capable of being applied directly to the substrate. Curtis teaches heating to foam to form the texturing or relief art and providing a composition or medium that will cure or "set" is well known and such would have been obvious to one of ordinary skill in the art in order that the expanded structure will remain in a desired textured form. Curtis teaches or suggests a dispenser for depositing the medium on the substrate, as in claim 41.

3.Claims 1-7, 9-18 and 20-21 are allowed.

4. Applicants' sole arguments concern the preservative ingredients now recited in claims 1 and 11; these arguments were persuasive.

5.Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1732

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
